

Course Information Policy

The Leeds School of English seeks to provide course information for prospective learners which is accurate, objective and up-to-date.

The School offers information for all its courses in a printed brochure and leaflets. Detailed information on all courses is always updated on the School's website at www.leedsschool.co.uk.

The Leeds School of English is pleased to welcome prospective learners, and their friends or family members, on a drop-in basis or via appointment. Visitors seeking additional course information would usually meet the Student Services Officer or the Administration Manager, who inform them about the range of courses the School offers, and give them a tour of the premises.

Course information is reviewed regularly to ensure accuracy.

New and temporary courses may be published on our website, which may not appear in our printed brochures.

Despite our best efforts, typographical errors may appear on our publicity material, which we cannot be held responsible for.
